VIC Crop Technology Centre Annual Field Day

Featuring the GRDC's:

**Hyper Yielding Crops &
Pulse Agronomy projects**

Thursday 27th October 2022

Gnarwarre, VICTORIA

Showcasing: Crop management to achieve maximums yields in VIC

How much higher can we go in wheat, barley and canola?

- Long season germplasm for early sowing in VIC
- Nutrition and farming systems to support hyper yielding crops
- Disease management and PGR strategies

Canola session: 10.15am

Directions: GPS -38.150889, 144.074789

Signposted off Inverleigh-Winchelsea Rd

Trial sites kindly hosted by Ewen Peel

Speakers: Rohan Brill, Nick Poole & Kenton Porker

KEYNOTE SPEAKER
PROF. JAMES HUNT

Professor James Hunt is an agronomist and crop physiologist specialising in water limited productivity of dry-land cropping and mixed farming systems. His research focuses on using combinations of management and genetics to increase productivity and profitability of grain-based farming systems. Prof. Hunt will discuss the building blocks to achieving fertile systems for hyper yielding crop production.

Kindly sponsored by: **Seed Force**
AN **AGT** COMPANY

Main field day

Directions: GPS -38.175647, 144.014368

Signposted off Inverleigh-Winchelsea Rd
(Site kindly hosted by Ewen Peel)

12.30pm - 1.15pm:

Lunch & Opening Address

**Andrew Russell, GRDC Southern Panel Chair and
Nick Poole, FAR Australia**

1.30pm - 4.30pm

In-field technical sessions

Prof James Hunt (Melbourne University), Nick Poole, Kenton Porker, Darcy Warren, Aaron Vague and Daniel Bosveld (FAR Australia), Jon Midwood (TechCrop), Ashley Armourgis (SFS)

4.30pm

Close and refreshments

Lunch and refreshments kindly sponsored by
