# Hyper Yielding Crops Annual Field Day

## Tuesday 19<sup>th</sup> September 2023

### FRANKLAND RIVER, WA

Showcasing: Crop management to achieve maximum potential yield in WA

*How much higher can we go in wheat, barley and canola?*

- Long season vs short season germplasm in WA?
- Nutrition to support hyper yielding crops
- What's our yield potential in the WA HRZ?
- What are growers adopting that is increasing productivity?

**Canola session: 10.00am**  
**KOJONUP**

GPS -33.900883, 116.763605

signposted off Boyup Brook-Kojonup Rd  
(Site kindly hosted by Ben Webb)

Speakers: Heping Zhang (Canola Researcher),  
Nick Poole & Darcy Warren (FAR Australia)

#### KEYNOTE SPEAKER

**Dr Frank van den Bosch**  
**Centre for Crop and Disease**  
**Management (CCDM)**

*Dr Frank van den Bosch is a biologist/plant pathologist and a modeller. His research focuses on the development and application of models to study the dynamics of plant pests and pathogens in the field.*
