Topics to be presented and discussed:

- Nitrogen management strategies. Are mineral or biological N banks an option on your farm. What are the legacies of legume crops?
- Cereal disease management strategies for 2023.

RiskWi\$e (the National Risk Management Initiative), is a 5-year national initiative of around \$30 million that will run from 2023 to 2028. It seeks to understand and improve the risk-reward outcomes for Australian grain growers by supporting grower on-farm decision making.
