

RiskWi\$e Field Walk

– the National Risk Management Initiative

Friday 10th Nov - 4.30pm

113 Hanrahans Rd, Daysdale, NSW 2646

GPS -35.675394, 146.358741

Signposted off Hanrahans Road

Join FAR Australia's Nick Poole and Ben Morris in the field – Looking at Risk and Reward of sowing on an early break.

Topics for discussion include:

- What is the risk of frost damage in early sown spring wheat and barley.
- What is the consequence of heat in later maturing wheat and barley.
- How do we manage the canopies of early sown wheat to minimise the risk of haying off.
- Barley management options to close the yield gap.

RiskWi\$e (the National Risk Management Initiative), is a 5-year national initiative of around \$30 million that will run from 2023 to 2028. It seeks to understand and improve the risk-reward outcomes for Australian grain growers by supporting grower on-farm decision making.

The session will conclude at 6pm with light refreshments.
