GRAINS RESEARCH
& DEVELOPMENT
CORPORATION

– the National Risk Management Initiative

‘Dirt, Diesel & Dice’

Join us for an evening where FAR Australia’s Research Manager Ben Morris will lead an insightful discussion on financial risks in cropping.

Prior to working at FAR Ben had 18 years of ‘skin in the game’ growing crops in the high rainfall zone and is still financially invested in agriculture.

When?

Wed 13th March 2024

5pm – 8.30pm
including dinner

Where?

Lake Bolac Football Club, Lake Road,
Lake Bolac VIC 3351

Are you concerned about the financial risks facing your farming operation? Don't let uncertainties hinder your agricultural success. Learn essential strategies to safeguard your farm's financial health and ensure stability in an ever-changing market. We will cover:

- Land ownership vs leasing. What are the risks and rewards?
- Can we tweak our agronomy to increase profits while reducing risk?
- Are there lower risk nitrogen strategies to optimise grain yields?

Also joining us is guest speaker **DR GRAHAM LEAN** of Agrivet Business

Based in Hamilton, Graeme has over 30 years’ experience consulting to farmers and agribusiness with services ranging from farm management and farm finance advice to farm benchmarking and farm business plans.

DINNER WILL BE PROVIDED, THEREFORE REGISTRATION FOR THIS EVENT IS COMPULSORY.
