Friday 20th September
1pm – 4.00pm
Pfeiffer Road, South Stirling

Didn't get the chance to see this important phenology research earlier in the year? Join the FAR Aus team to look at sowing dates of winter and spring wheats and barley.

The plots which are part of a one-year GRDC investment 'NGN - Winter wheat investigation on the Southcoast of WA' will form the backdrop to an informal field walk around the FAR Australia research site at Scaddan (MRZ) in the Esperance Port Zone and South Stirling in the Albany Port Zone (HRZ)
